The screenshot shows a web browser displaying a website with a yellow header and a pink main content area. The header contains navigation links: HOME, ABOUT, and CONTACT US. The main content area is titled "Home Page" and "OUR PRODUCTS". It features four product categories: Mens, Boys, Women, and Girls. Each category has a representative image and an "ADD TO CART" button. A chatbot overlay titled "Watson Assistant" is visible on the right side of the page. The chatbot interface includes a home icon, a title bar, and a chat area. The chat area shows a conversation where the user says "Hai" and the chatbot responds with a greeting and a request to select a gender. The user selects "Male", and the chatbot responds with a greeting and a request to select an age range. The user selects "1 - 10", and the chatbot responds with a message about the chat session being inactive. The chatbot interface also includes a text input field and a "Type something..." placeholder. At the bottom of the chatbot interface, it says "Built with IBM Watson®".
